As a personal injury attorney, I have seen too many catastrophic injuries caused by distracted driving. After representing numerous victims with traumatic brain injuries or those who have become permanently disabled because of a distracted driver, I knew I had to do something. I launched the Avrek DriveSafe Scholarship Program—an effort to raise awareness on the issue of distracted driving, especially with young motorists and texting. The program is intended to educate the public on the hazards of distracted driving and the devastation it can cause in the blink of an eye. For more information regarding the DriveSafe Program, please visit avrek.com/scholarships/. I feel blessed to be so passionate about what I do each and every day.
